

First Annual – Chemical Engineering and Technology “Summer Undergraduate Industrial Training (SUIT)” Poster Presentation – 2011

This is NOT a competition about Poster Presentation. It's simply looking for posters which can raise the profile of the profession and help the community to develop, explore and understand Chemical Engineering and Technology.

Show us where you have done internship and what you have learned. You are invited to share your industrial experience with other students of the University of Engineering and Technology Lahore and have chance to get participation certificate and win one of three great prizes.
