

EARTHQUAKE ENGINEERING LABORATORY

In light of the need for development of understanding about Structural Dynamics and Earthquake Engineering, the department has initiated this new project. This laboratory is in the development stage and shall start operation in the first quarter of 2011. The laboratory is equipped with a ANCO Engineers Inc, R-441, Uni-axial shake table, which has an area of 2x2 m, and a payload of 4 tons.

The Laboratory shall be actively utilized for academic and research.

COURSES

Under-graduate Level

1. Structural Engineering.
2. Design of Structures.

Post-graduate Level

1. Earthquake Engineering
2. Dynamics of Structures
